SOLAR SG

Corrugated External Protection Covering

SOLAR SG COVERING is a corrugated special polymer external protection membrane, offering resistance to ultra violet radiation and other atmospheric agents.

Available in White Colour.

Benefits and Properties

- Protection against harsh weather and UV radiation.
- Oil and grease resistant.
- Protective film with high temperature resistance up to 80°C.
- No need to tape, paint or cover and easily cleaned with a standard cloth.
- Attractive appearance & professional result.

Permeability: Increased resistance to water vapour transmission.

SOLAR SG Protection: Its external surface may not exhibit aesthetic defects for at least several years after prolonged exposure to UV radiation.

Flexibility: Continuous long term performance.

Temperature Range on Surface of Covering: -40°C to +80°C

Lifespan (est.): +5 years

Warranty: 3 years

4 Layer Coverings

-40°C

+80°C

Exterior Use

A wide range of applications:

Pipes

Heating

Plumbing

Air Conditioning

Cooling

Solar Energy

Available with insulation of: ISOPIPE TC (+110°C).
For more information, please refer to ISOPIPE TC Brochure.
