

# ISOPIPE<sup>®</sup> S.A.

Over 25 years of innovation focusing on improving and providing products that are environmentally and human friendly!

Over the years, we have developed antibacterial and antifungal products, free of halogens, that contribute significantly to the global effort to saving up to 80% of energy.

The Integrated ISOPIPE Insulation Systems and their vertical production have a total of 75 certifications from International Accredited Bodies.

In order to ensure the proper operation of production, to provide environmentally friendly products and the safety of our people, we hold the following certificates:

- ✓ EN ISO 9001:2015, certifies that the company applies the Quality Management System
- ✓ EN ISO 14001:2015, certifies that the company applies the Environmental Management System
- ✓ EPD EN 15804 & ISO 14025, certifies that the integrated ISOPIPE insulation systems are environmentally and human friendly
- ✓ ISO 45001:2018, certifies that the company takes care of the safety and health of all its personnel

Together we can create a better Future!

Together, we will  
**Rebuild the future!**
