## Our Commitment to Energy Responsibility

Dear Partners,

With a sense of pride and responsibility, we are pleased to inform you that our Company **ISOPIPE S.A.** has been **certified** with **ISO 50001:2018**, reaffirming our strategic commitment to energy efficiency and sustainable development.

This distinction:

- Highlights our continuous focus on sustainable practices and environmental consciousness.
- Enhances our ability to continuously optimize our energy performance.
- Recognizes our collective effort to comply with international standards and best practices.

As part of our overall strategy for a responsible business model, we would like to remind you that:

- Our Company is also **certified** with **ISO 14001:2015**, further reinforcing our commitment to environmental protection.
- We hold an **ESG certification (Environment, Society, Corporate Governance)** with an **A rating**, placing us in the **Excellent Performance** category—an acknowledgment that affirms our consistency with the principles of transparency, social responsibility, and sustainability. For this recognition, we have been awarded by the ICAP Group.
- We prioritize the safety of human life and respect for all forms of existence, recognizing the importance of harmonious coexistence with the environment and ethical conduct at all levels.

With every initiative we undertake, we work towards a world where technological advancement, innovation, and entrepreneurship coexist with responsibility and awareness.

Thank you sincerely for continuing to support our vision.

**Together, we will Rebuild the Future!**

Sincerely,

Mrs. Nancy Markati, Quality Assurance Manager
